

# DBB Compensation Plan

DBB has created a compensation plan that is simple to understand, easy to earn, and built to last!

You have the opportunity to double your BitCoin as quickly as you would like with our dynamic referral program.

## Fast Start Bonus

Level 1 - 5%

Level 2 - 3%

Level 3 - 2%

### Level 1 Example:

You make 10 personal sales at the DB5 Package ( 1 BTC Level)

1 BTC (DB5 Package Price) x .05 (Level 1 Commission Rate) = .05 BTC

.05 BTC x 10 (Personal Sales) = .5 BTC Fast Start Bonus

### Level 2 Example:

The 10 people that just purchased the package from you each make 2 personal sales at the DB5 Package (1 BTC Level).

10 (your personally sponsored people) x 2 (their personal sales) = 20  
New Level 2 Sales

20 (Level 2 Sales) x .03 (Level 2 Commissions Rate) = .6 BTC Fast Start  
Bonus

### Level 3 Example:

Now the 20 people on Level 2 just make 2 personal sales at the DB5  
Level

20 (Level 2 Members) x 2 (Sales) = 40 New Sales

40 (New Level 3 Sales) x .02 (Level 3 Commission Rate) = .8 BTC Fast  
Start Bonus

**Payment Cycle = Paid Daily at Midnight EST**

**In order to qualify for the Fast Start Bonus you must have personal  
sales volume equal to or greater than the package you own**

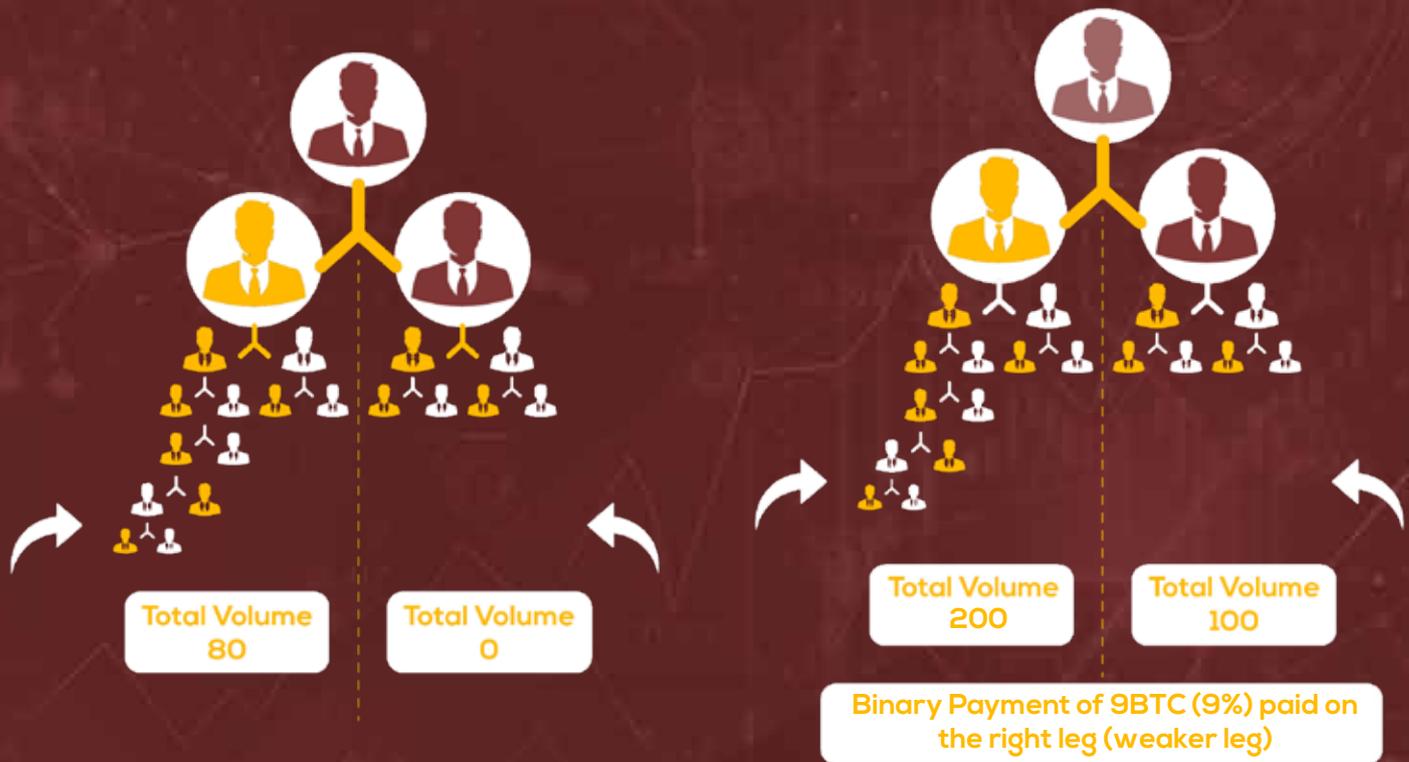

## Binary Pay

**Step 1:** To earn Binary Pay you must qualify by making two personal sales. One sale must be on the right side of your binary, and one sale on the left side of your binary, at any package level. Once you complete this qualification you are now fully qualified to earn Binary Pay. You are only required to qualify one time.

**Step 2:** To earn Binary Pay you will take all of the volume on your right and left legs, and combine it. The volume on the weaker leg will then be multiplied by the percentage of the package you choose to purchase.

For Example:

If you are the owner of the D5 Package (1 BTC) level than you have a Binary Pay percentage of 9%.

As you can see, you have 100 BTC volume on the left side of your binary and 200 BTC volume on your right side. Since 100 BTC is the weaker leg, you will subtract 100 BTC from both the left and right side of the binary.

Total Binary Volume for Pay Period = 100 BTC (weaker leg volume) x 9% = 9 BTC Binary Pay

This means you would be paid 9 BTC directly to your personal BTC wallet! Also you will still have 100 BTC rollover to the next pay period from the right side of your binary!

**\*All Binary Pay will be made Daily at Midnight EST**

**\*The minimum daily withdraw amount is .03 BTC**

**\* Refer to the maximum daily binary pay on the packages listed below**

## **Trading Bonus**

DBB has designed a Trading Bonus that is paid directly to your wallet daily after you purchase your package. All that is required by you is to decide which package works best for your budget. Once you purchase a package you will begin to automatically accumulate earnings between .25% and 2% daily. This percentages is announced on the 15th of each month for the next 30 days. It is determined by the profits accumulated by our Sports Trading and Crypto Trading returns.

Here is an example of the way the Trading Bonus can work for you:

You purchase the DB5 Package, which is priced at 1 BTC.

For this month DBB announced a 1.2% daily percentage rate for our members based on our Sports Trading and Cryptocurrency Trading performance.

The Trading Bonus will work like this:

$1 \text{ BTC (Your Package)} \times 1.2\% \text{ (daily profit from sports and cryptocurrency trading)} = .012 \text{ (Daily Percentage)}$

Your Trading Bonus = .012 BTC Paid Daily to Your Wallet

Once your 1 BTC grows to 2 BTC (or doubles) you will have two different options to choose from.

**Option 1** – Reinvest your BTC into a package at the same value as your original purchase or higher. This will need to be done within 24 hours of doubling. Once you do this your doubling period restarts. There is no limit to the amount of times you do this.

**Option 2** – If you would like you can take the BTC in your account, and close your account.

The trading bonus will be paid out every 30 days from the time of your purchase

The 15th of each month the company will announce the daily percentage that will be paid for the next 30 days based on the profits from our Sports Trading and Crypto Trading.

It will be a minimum of .25% and a maximum of 2% daily, directly to your wallet.

DBB has made it possible for all of our members to earn the Trading Bonus. We have also taken it a step further to reward those members who are actively building their business. You simply need to choose if you would like the Minimum Trading Bonus or the Maximum Trading Bonus!

### **Option 1 – “Minimum Trading Bonus”**

All accounts will be paid a minimum of .25% daily Trading Bonus. This will be paid daily. There is no qualification for this bonus. All packages are eligible to earn the Minimum Trading Bonus.

### **Option 2 – “Maximum Trading Bonus”**

On the 15th of each month DBB will release a “Maximum Trading Bonus” to our members. To qualify for the maximum Trading Bonus you are required to have personal volume equal to or greater than the package you currently own. Once you are qualified you will earn the maximum Trading Bonus which can equal as much as 2% daily! This will be paid every day directly to your wallet.

For instance, if you own the DB5 (1 BTC Level) you could make one personal sale at the DB5 level, or 2 sales at the DB4 (.5 BTC Level). As long as your personal volume is equal to or greater than your own, you are qualified to earn the maximum bonus.
